PROFILE SUMMARY

I'm a Tech Lead with strong full-stack experience, focused on building scalable, high-quality applications and guiding teams toward technical excellence. I specialize in JavaScript, Node.js, Express, Python, Django, and databases such as MySQL, Oracle Database, and MongoDB. I enjoy making informed technical decisions, mentoring developers, and delivering reliable and efficient software solutions.

WORK EXPERIENCE

X-Byte

Jan 2022 - Present

Team Leader

- Lead teams in building scalable systems with clean architecture, strong infrastructure, and reliable full-stack engineering.
- Led a high-level project involving the integration of multiple APIs and backend services.
- Headed the R&D team to explore new technologies and optimize workflows.
- Built and maintained web scraping scripts for data collection and automation tasks.
